

School Annual Report (2020-21)

Dear Friends,

I am again here with the yearly report for the session 2020-21 but I don't feel very excited and positive while giving you all an account for the last year. The pandemic of COVID 19 has made every aspect of life so inconvenient and complicated. Schools is the worst affected sector during this pandemic. The entire building gave a haunting feeling without the giggling and joyous movement of our children in the entire campus. Our belief that children learn best in a group system and they explore in the best way with their peer group could not be achieved practically as our little ones were locked into their homes.

We as an institute got worried about the learning and overall development of our children but by holding the hands of present technologies and resources available with us, we started Online classes for our 496 students. Believe me it was not easy to understand the complexity of gadgets, cameras, headphones and execute online classes but, hats off to my entire team who had not left any stone unturned to make our online classes a great success.

During our online classes we did not focus only on the academic transactions, we tried to reach our children with all the day to day activities we conduct regularly in our school like: yoga sessions, aerobics, and hobby classes, story sessions, experiments, dance, music and what not. We also celebrated all the festivals online, where teachers performed acts, dances and songs for the children to make them the part of celebration and to break their monotony of staying at home without any recreation.

In those tough conditions also we conducted most of our planned CCA activities and events:

Story telling competition	Spell bee competition	Poem recitation
Science quiz	GK quiz	Sports quiz
Independence Day	Republic Day	Diwali celebration
Dusshera celebration	English week	Hindi week
Winter Carnival		

At last, I would add that though it was the most challenging and special year for all of us but with the never failing spirit of my team and my deep trust in my teachers as well as parents we could change this challenging year to a year full of new learning, new plans and new executions. These new lessons will help us in all our future ventures also. Hope for a better and changed world.

Regards

Abha Singh

Principal

Takshila Academy (Roots)
